## RESOLUTION A

### PERTAINING TO THE FEDERAL FLOOD INSURANCE PROGRAM

WHEREAS, certain areas of Bartlett are subject to periodic flooding from Streams and Rivers, causing serious damages to properties within these areas; and

WHEREAS, relief is available in the form of Federally subsidized flood insurance as authorized by the National Flood Insurance Act of 1968; and

WHEREAS, it is the intent of the MEETING to require the recognition and evaluation of flood hazards in all official actions relating to land use in the flood plain areas having special flood hazards; and

WHEREAS, this body has the legal authority to adopt land use and control measures to reduce future flood losses;

NOW, THEREFORE, BE IT RESOLVED, THAT THIS MEETING HEREBY:

1. Assures the Federal Insurance Administration that it will enact as

necessary, and maintain in force for those areas having flood hazards, adequate land use and control measures with effective enforcement provisions consistent with the Criteria set forth in Section 1910 of the National Flood Insurance Program Regulations; and

2. Vests the Board of Selectmen with the responsibility, authority, and means to:

(a) Delineate or assist the Administrator, at his request, in delineating the limits of the areas having special flood hazards on available local maps of sufficient scale to identify the location of building sites.

(b) Provide such information as the Administrator may request concerning present uses and occupancy of the flood plain.

(c) Cooperate with Federal, State, and local agencies and private firms which undertake to study, survey, map, and identify flood plain areas, and cooperate with neighboring communities with respect to management of adjoining flood plain areas in order to prevent aggravation of existing hazards.

15 Accidents investigated (under \$300.00)

6 Traffic control calls on fires

This has been a very busy year. I have been averaging 60 hours a week, on day and night calls.

I want to thank the general public and the young people for their co-operation this past year and the board of Selectmen.

Respectfully submitted,  
JOHN A. RODEN, Chief

P.S. The town needs two regular patrolmen around the clock with the increase of business establishments, one more bank possible too and vacation homes, plus permanent homes. The Town of Bartlett is the second fastest growing town in Carroll County, as noted by the Register of Deeds. The tourist industry has become an almost year round business. One Chief cannot possibly cover the area of this town and the complex growth.

## BARTLETT PUBLIC LIBRARY

The book circulation for the Bartlett Public Library for 1975 is 7,966. Approximately 1800 books were borrowed from the North Country bookmobile. Four hundred twenty-one books were added to the circulation. Forty-seven of these books were purchased by the Supervisory Union with Title II federal funds for school library books. The librarian served on the Title II Advisory Committee during 1975 and attended 5 meetings in Conway and one in Meredith. The librarian attended two book buying meetings and a district meeting at Franconia.

The library conducted Monday Night Film Programs for ten weeks during the summer. It also conducted the "Four Thousand Footer" Reading Club for the eighth year. This year the members climbed Mt. Willard at the end of the summer.

The library requested and received \$3,650.00 in Revenue Sharing funds to enlarge the library, install a folding door, and purchase equipment and furniture for the new addition. This new addition is now completed and has added an additional 484 square feet to the library and approximately 300 additional feet of new shelving. The furniture has been ordered but not received yet. This addition is a great improvement to the facilities of the library and it will improve the library in its function as a school library.

The library has decided to collect old pictures of Bartlett and have them reproduced, so there will be a pictorial history of Bartlett available in the library. This is being done as our bi-centennial project. If anyone has any old pictures they would be willing to loan so that negatives can be made of them, please contact the librarian or one of the trustees. A few pictures have already been reproduced and it is amazing how well the old snapshots and photographs have reproduced. Also, the librarian would like as many old town reports as possible to be used for reference purposes in the library. At the present time, most of the reports the library has date from the 1950's on.

The library has been having exhibits of books relating to the bicentennial reading program sponsored by the American Library Association, called the American Issues Forum. This exhibit changes monthly, and each month the newspaper the "National Observer" does a special essay on the topic for that month. There is a reading list available for both adults and children relating to this book exhibit.

The Auxiliary has given memorial books in memory of Laura Clemons, Amy Fish, Howard Dorsett and Bob Jones. A memorial book in memory of Hilda Ludgate was given by the Bartlett School staff.

The largest increase in this coming year's budget is for books and magazines. Due to the increased cost of books this increase is necessary. Also the library policy is to purchase a new encyclopedia every five years and this is the year we will be making this purchase.

If you haven't visited the library since the new addition has been added, please do drop by. Your library is here to serve the entire community.

Jean Garland, Librarian  
Flora Jones  
Hilda Howard  
Judith Smith, Trustees

## SACO RIVER STEERING COMMITTEE

Subsequent to action taken at the March, 1975 Annual Meetings of Conway and Jackson, a Saco River Steering Committee was appointed by the Selectmen. Due to an oversight, a special article to this effect failed to appear in the Bartlett Warrant. However, Selectman Gene Chandler agreed to serve in an ad hoc capacity, representing Bartlett.

The purpose of this committee is to "research and draw up in cooperation with other towns in the valley an overall plan for future use and regulation of the Saco River and major tributaries.

Members from Conway appointed were Chester B. Lucy, Ned McSherry, Thomas Deans, Woodrow Allard; Bartlett — Gene Chandler; Jackson — Herbert George and Robert McManus.

It was the opinion of the Committee that it should first take an inventory, so to speak, find out what direction the residents themselves wanted to take, then establish priorities and proceed to implement these priorities.

The Committee has met with members of the State Planning Commission, North Country Council, Saco River Corridor — Maine, and others. Two public meetings with landowners along the Saco were held. Field trips by the Committee were made inspecting the Saco from above Bartlett Village to the Maine-New Hampshire state line. 2,000 questionnaires were mailed throughout the Valley requesting opinions on different aspects and priorities of the Saco River Valley, from which there was a return of 284.

Since there is already broad legislation concerning river control and planning on both the Federal and State level, it is our opinion that the residents in the Valley would much rather have control from a local level rather than Federal or State. The returns from the questionnaire bear this out. Therefore, if some local plan, no matter how broad, is already in existence, it follows that other regulatory bodies would have a "hands off" policy. This has been confirmed from higher levels of government.

At this point I would like to say that from the very beginning in April, 1975 we have had tremendous cooperation among the different town representatives and officers. Everyone concerned feels we have a common purpose, and that political boundaries should have no bearing on our efforts and direction.

Because of the scope of our project and the fact that we are all volunteers, we are able to give only a progress report rather than a final report at this time. Most of the leg work is done so that the next twelve months should see a final report with recommendations. For these reasons, there is a special article in the Bartlett warrant requesting further funding to pay future expenses and "keep us alive." There is a similar article in the Conway and Jackson Warrants. We promise not to squander.

As positive action recommended at this time, we have petitioned an article in the Conway Warrant to amend the Conway Flood Plain Ordinance to accept municipal and school district facilities. This would enable water districts to construct pumping stations, if needed in the future, and school plant expansion on existing sites if so desired by the voters.

At some point in the future public meetings will be held to get your input and also explain our progress so far.

Respectfully submitted,  
Chester B. Lucy, Chairman
